

FIREHOUSE

SPECIALTY SHOP

Select Basement Waterproofing is as a professional company as you could possible have to deal with your water issues. From the get go they came right out and gave us a quote on the job. They are there to do and finish the job as scheduled. When they said they start the job they did and when they said they would be finished they were. There crew is excellent. Careful with moving and covering need be items, extremely professional working and cleaning up the job at the end. We would recommend Select Basement Waterproofing a million times over.

Thank You,
The Hendrickson's
